Dear Chair DeLauro and Ranking Member Granger:

I am requesting funding for the first phase of the Village Within a City project for fiscal year 2022.

The entity to receive funding for this project is North Pacific Rim Housing Authority, located at 8300 King Street Anchorage, AK 99518.

The funding would be used for constructing a 30,000 sq. ft. building for the first phase for the Village Within a City project. The Village Within a City project would be a multi-use resource hub for the Alaska Native Community in Anchorage, Alaska. Non-profits who offer access to health care, transportation, education, and housing services would occupy the facility, with a training and innovation center housed on the ground floor. Later phases include a separate, more expansive center and a housing complex to provide affordable housing options. This project will bring many of these services under one roof and include an important cultural element, which is an essential element for success for the Alaska Native population, and will help prepare Alaska Natives for a healthy, successful, and economically sustainable future either in Anchorage or their village communities.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

A handwritten signature in black ink that reads "Don Young".
